

# BODY TREATMENTS: OBESITY AND CELLULITE

## APPLICATION TECHNIQUE

Usually we do not need to use more than **2 cc** for one hip, we apply the product with the **specific terminal** for **body** treatments connected to the maximum power (**95 %**) during **10 to 15 minutes** approximately for each limb within the whole affected area : hips, abductors, lower part of the gluteal muscles and inner part of the knee. The **depth of penetration** in hydrolipidic products is approximately **1 gr / 1 - 1,5 minute**.

The **movements must always be circular** and **slow**, noticing how the product is absorbed into the skin and disappears.

### CELLULITE PROTOCOL

#### PURE CELLULITE:

**LIPOTROFIN®**  
"ION - SERUM"

#### CELLULITE WITH A LOCALISED ADIPOSITY COMPONENT:

**LIPOTROFIN®**  
"ION - SERUM"  
+  
**METABOLITES®**  
"ION - SERUM"

#### CELLULITE FLAB:

**LIPOTROFIN®**  
"ION - SERUM"  
+  
**MUSCLE BIG®**  
"ION - SERUM"

### OBESITY PROTOCOL

#### LOCALISED OBESITY

(upper abdomen, lower and side, gluteal muscles, etc.)

**METABOLITES®**  
"ION - SERUM"

#### LOCALISED OBESITY AND FLABINESS:

**METABOLITES®**  
"ION - SERUM"  
+  
**MUSCLE BIG®**  
"ION - SERUM"

**We always finish with a smooth massage with VACIRTON - GEL ANTICELLULITIC.**

The frequency of treatment must be according to doctor's criteria, as a guideline:

- **1 weekly session** until satisfactory results are shown.
- **1 fortnightly session** during 2 or 3 months, measuring the evolution in the process.
- **1 monthly session** of maintenance. This session is very important in order to maintain the obtained improvements.

## FACE ANTIAGING TREATMENT

### MEDICAL-COSMETIC FACIAL TREATMENT

Facial Skin Ageing, Hydration + Intensive Anti-Wrinkles Nutrition.

We use **1 - 2 cc** of **FACE ANTIAGING SIMILDIET** vials which we apply with **gentle and slow circular movements** following the expression lines in the face, neck and low neck. We use half power (**60 - 75 %**) for a complete facial treatment, which should not be longer than **20 minutes**.

In the low neck area we complete the treatment by adding in the syringe  $\frac{1}{2}$  - **1 cc** of **MUSCLE BIG® "ION - SERUM"** as a reaffirming of the pectoral muscles.

In cases of faces with cuperosis, with an important vascular component, with vascular spiders or micro- teleangiectases, the treatment must be completed by adding in the syringe  $\frac{1}{2}$  - **1 cc** of **LIPOTROFIN® "ION - SERUM"**.

As a final touch we finish every treatment with a gentle massage with **FACE ANTIAGING SIMILDIET CREAM**. This cream is recommended for daily use, morning and night, as a perfect complement to intensive facial lifting treatment.

A scheme of the frequency of the treatment could be:

- **1 weekly session** during four weeks followed.
- **1 fortnightly session** during two months.
- **1 monthly session** according to need for maintenance.

Always complete the treatment with the daily treatment of **FACE ANTIAGING CREAM**.
