FACE ANTIAGING VIALS: LIFTING MEDICAL-COSMETIC

Sterile biological solution with Hyaluronic Acid 1 %, D.M.A.E 1,5 %, Aminoacids, Vitamins, Minerals and Enzymes co-factors.

It favours the cell renovation, protects the skin barrier function, increases the elasticity and permeability of the skin, tensile effect, great moisturizing capacity.

Specially indicated to be applied with Electro-medicine devices : Transdermal Electroporation, Iontophoresis, Depressotherapy-vacuotherapy.

Recommended application :

- 1 weekly session during the first month.
- 2-3 sessions vary two weeks.
- 1 monthly session after the third month.

FACE ANTIAGING CREAM

Daily care of the skin, treatment and prevention of skin ageing signals, facial and expression wrinkles. Complement for the treatment with FACE ANTIAGING VIALS.

Hyaluronic Acid, D.M.A.E, Lactobionic Acid, Simmondsia Chinensis (Jojoba) Seed Oil, Sodium Chondroitin Sulphate, Spirulina Maxima Extract.

Moisturizing cream with tensile effect. Renews cells cycle, preserves the function of the skin barrier and restrains the loss of the epidermis thickness.

Apply in the face and neck every morning and night after make up removal. It may be used as a make-up base.
